SF30 Block 14

The purpose of this modification is to issue a change order revising the Statement of Work (SOW) and to make certain other changes to the contract terms associated with the revised SOW. These revisions are being made under the authority of the contract clause contained in Section I, entitled "Changes – Cost Reimbursement (Aug 1987) – Alternate II (Apr 1984) & Alternate III (Apr 1984)." The Contractor is to begin work immediately. The Contractor is authorized to incur costs Not-To- Exceed (NTE) \$1,800,000.00, consistent with the other contract terms and conditions and pending definitization of this change.

The work described in this modification shall be performed using funds obligated under CLIN 00001 in accordance with FAR 52.232-22 Limitation of Funds.

1. Section B, Supplies or Services and Prices/Costs is modified as follows:

A. Paragraph B.1 is modified to add the following:

The Contractor shall, in accordance with the terms of this contract, provide the personnel, materials, supplies, and services and do all things necessary for, or incidental to, performing the changed work. The detailed description of the changed work is contained in Section C of this modification (Modification 122).

B. Paragraph B.3 is modified to add the following:

No fee shall be paid to the Contractor for the changed work under this change order (Modification 122), including provisional fee, prior to definitization.

2. Section C, Description/Specifications/Statement of Work is modified as follows:

A. Section C is modified to add the Supplemental Salt Processing Initiative Scope of Work to the Overview of the Contract Workslope (page C-4) as follows:

Added: Actinide Removal Process/Modular Caustic Side Solvent Extraction Unit ARP/MCU Life Extension Fabrication and Installation

This modification for ARP/MCU Life Extension includes fabrication and installation activities, including procurement of bulk items, for process systems that will be added or modified during the planned January 2012 outage as well as non-intrusive installations prior to and after the outage. Activities will also include the procurement of spare equipment needed for the ARP/MCU and for the 512-S Facility to support ARP/MCU Life Extension. SRR shall include Title III Design support for construction activities as well as fabrication and material/equipment procurement activities. All work performed shall be completed in accordance with the designs and specifications of Modification 071 (ARP/MCU Life Extension Design).

The following fabrication and installation activities support the modifications or additions to the ARP/MCU facility and Strip Effluent (SE) Coalescer system. Activities will also include the procurement of spare parts needed for the ARP/MCU and for the 512-S Facility to support ARP/MCU Life Extension. Upgrades to support demonstration of the Next Generation Solvent (NGS) will not be done at this time. These activities will be in accordance with the detailed design requirements provided under Modification 071 and include:

- Develop work packages for fabrication and installation
- Procure construction bulk materials, piping, etc. for pre-fabrications and installations
- Procurements of engineered equipment (other than long lead) for SE Coalescer system modifications
- Procurement of miscellaneous spare parts and engineered equipment spares, including spares needed for ARP/MCU and for 512-S (other than long lead)
- Installation of a new sample return line
- Procurement of new cell covers where new core bores are required
- Replacement of the weather enclosure at the MCU sample station
- Installation of all procured and fabricated items and assemblies, with the exception of items designated as spares, during the January 2012 outage (including items furnished under OTDP #1 and long lead procurements) or at other times during the specified period of performance
- Title III design support for key procurement, fabrication and installation activities
- Readiness activities and testing of key systems prior to Operation
- Program Support as required to support procurement, fabrication and installation activities

All fabrication, procurement and final installation activities associated with the ARP/MCU January 2012 outage and any non-outage related work scope must be completed by September 30, 2012.

3. Section E, Inspection and Acceptance is modified as follows:

Remains unchanged.

4. Section F, Deliveries or Performance, clause F.2 is modified as follows:

(e) The period of performance for the changed work specified in Modification 122 Section C shall be for the period of performance beginning with the date of this signed modification (Modification 122) through September 30, 2012.

5. Section G, Contract Administration Data, clause G.7 is modified as follows:

(e) The Contractor may invoice costs for both the changed work and other work in the same invoice. However, the Contractor shall separately identify costs in its invoices that pertain to the changed work until the parties agree to an equitable adjustment for the changes ordered by the Contracting Officer per Modification 122.

7. In reference to this change order, incorporate clause FAR 52.216-24 Limitation of Government Liability (Apr 1984)

In performing this contract modification, the Contractor is not authorized to make expenditures or incur obligations exceeding \$1,800,000.00 dollars.

The maximum amount for which the Government can be liable for this contract modification if this contract is terminated is \$1,800,000.00 dollars.

8. FAR 52.243-6 Change Order Accounting (Apr 1984) is hereby invoked.

9. Section J, List of Attachments is modified as follows:

Remains unchanged.

10. Proposal Due Date

The Contractor must assert its right to an adjustment under this clause by submitting a proposal no later than September 30, 2011.

11. All other terms and conditions remain unchanged.
